

Question Bank + Model exams

ICT – 5th Prim

First Term 2023 - 2024

Prepared and designed / **جروب فريق أصدقاء الكمبيوتر**

أ / ياسمين شعيب

First Axis: The role of information and communications technology in our lives

"October"

Put (✓) or (×):-

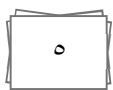

1. Technological tools have made it easier to complete daily tasks. ()
2. The scientistd Fraid had a great role with his colleagues and students all over the world ()
3. Fraid Hibbert is a physicist . ()
4. In his work FraidHibbert relied on the method of exploration, observation, and writing. ()
5. The scientist Farid, was doing his work alone ()
6. PowerPoint is used to create mathematical tables and prepare graphs. ()
7. Word is used to write reports and document meetings and virtual meetings ()
8. can be made Virtual meetings and gatherings at any time without organizing a specific date. ()
9. The scientist Fraid has mentored his students and colleagues all over the world ()
10. Mentoring is advising or coaching someone on a topic in which you have significant experience ()
11. The exchange of information has become vital in our daily lives ()
12. Excel is a program used to create mathematical tables and prepare .graphs ()
13. Fraid Hibbert is active explorer for the National Geographic Society ()
14. Virtual meetings provide an effective way to mentor others ()
15. Scientist Fraid is a teacher who guides his students and colleagues around the world. ()
16. An Ethernet cable is a device that connects a computer is connected to the Internet via Ethernet or Wi-Fi. ()

17. Internet connection is better than wireless connection ()
18. The higher the number of cycles, the faster the processor ()
19. A gigabyte GB equals 1024 .MB ()
20. It is difficult to back up your files through an external hard drive ()
21. You cannot solve any problem that may appear to us while using the computer ()
22. The hard disk is always smaller than the flash memory ()
23. An external hard disk is used to store large files ()
24. A bit is the smallest unit of measurement for storing data ()
25. When there is a problem processing large files, some programs may .be closed ()
26. try Fast wired Ethernet network in case the wireless Internet connection is weak and slow ()
27. Ethernet connection is better than Wi-Fi connection . ()
28. A router just connects your computer to your Internet service .provider ()
29. A gigabyte (GB) .is the smallest unit of data ()
30. A megabyte (GB) is the largest unit of data ()
31. Gigahertz measures the number of cycles your processing unit executes per second ()
32. If you are unable to store files, you can transfer old files to External drive ()
33. Megabit Per second is a unit of measurement used to measure network speed or Internet connection. ()
34. Flash memory is used to transfer, share and store information ()
35. An Ethernet port is a wire that transmits audio and video To and from .devices ()
36. A closed network is .a network available to specific individuals ()
37. A closed network is what your school's computer lab could be ()
38. A router is a gateway used to connect a computer to the Internet ()

39. An intranet is a network that connects computers and people from all over the world who use that network ()
40. The Internet is a limited network ()
41. An Ethernet cable is a wire that connects your computer to your router ()
42. A router is like the Internet service provided by Egyptian companies .to citizens ()
43. A local network is a computer connected to another computer or device such as a printer or router ()
44. Networks represent groups of people or things connected together for a common goal ()
45. An Internet service provider consists of web pages or web pages that people can navigate between ()
46. WWW is the abbreviation for World Wide Web . ()
47. LAN .is an abbreviation that refers to local network ()
48. Types of networks include the Internet and Intranet only ()
49. Gateways such as The router that connects your computer to your .Internet service provider ()
50. A closed network is part of the Internet, which consists of web pages .that people can navigate between ()
51. The WWW .is part of the closed network ()
52. There may be open networks that are available to everyone, and there may also be closed ones that are limited to some people ()
53. In the late 1980s, Internet access was via dial-up ()
54. The World Wide Web emerged .In the eighties ()
55. Wi-Fi devices became popular in the year 2000 and access to a network Internet from your smartphone is possible ()
56. The phone line was the way Used to connect to the Internet in the 1980s ()
57. In the 1990s it was impossible to use Phone while using the Internet and the connection was slow but Fixed ()

58. Using mobile phones in our daily lives is like using computer networks ()
59. .All types of computer networks are closed networks only ()
60. The Internet of Things consists of devices connected to the Internet via Wi-Fi that you can control ()
61. Bluetooth technology A network that connects mobile devices Wireless over short range ()
62. Examples of IoT are only Bluetooth speakers ()
63. Screen readers help the visually impaired write research papers and ...access Documents on your computer ()
64. It is important to consider digital privacy before purchasing any .product online ()
65. Businesses and organizations use networks every day to share information ()
66. Networks are not useful for people of determination in saving money and time, and increasing Their level of self-confidence ()
67. You cannot control devices connected to the Internet via Wi-Fi. ()
68. E-shopping is purchasing items over the Internet ()
69. closed networks Networks Some of them are private through Some of them are public through open networks. ()
70. Egyptian Knowledge Bank (Egyptian Knowledge Bank) It contains a lot of interesting and enjoyable information ()
71. E-commerce has made everyone's lives difficult because it is unsafe ()
72. House hold appliances are not considered part of the networks ()
73. Computer networks give people People of determination have more independence, whether at home or in public places. ()
74. When you do online shopping, you must obtain permission from your parents ()
75. Networks for the visually impaired have provided screen readers to help them read In Braille ()
76. The Egyptian Knowledge Bank contains interesting and enjoyable information ()

77. Checking the WIFI connection is one of the possible solutions to the slow operation of the search engine ()
78. You cannot solve any problem that may appear to us while using the computer ()
79. Make sure the router is connected in case your computer is slow ()
80. If the download is slow Restart your computer and router; Check internet speed ()
81. Restart your router; C R B Ethernet cable New Ethernet in case the Internet connection is interrupted ()
82. The first step to solving a problem is defining the problem ()
83. If you do not find a solution to the problem, you should seek help from your teacher or a member of your family ()
84. Following specific steps when working does not help in discovering and fixing problems ()
85. Problems may occur due to the device used, its software, or poor Internet connection Or its interruption ()
86. What you learned from one problem may help you the next time you try to solve another problem ()
87. Check for software updates if your computer slows down when you open an application ()
88. Check for app updates If the search engine is running slowly ()
89. Check for software updates if your Internet connection is interrupted ()
90. Thinking of different ways to solve the problem is the second step in solving the problem ()
91. Planning To find different ways to solve the last steps to solve the problem ()
92. If an idea you come up with doesn't solve a particular problem, it might contribute to a solution . Another problem ()
93. Wi-Fi connection problems if your computer is slow ()
94. It is not necessary to give each file a unique title ()

95. It is best to place documents, photos, and videos in the correct folder for each type ()
96. Flash memory is used to store and transfer files ()
97. The main folder contains only one subfolder ()
98. The QR Code is a code to output information on systems by directing the device's camera at the code ()
99. The scanner is used to convert images into files, save them, and store them on the computer for later reference ()
100. One of the sources for obtaining information is to search online only ()
101. Pictures and drawings are entered into the computer through a scanner, saved as files, and stored on a memory card ()
102. To create a folder, click the right mouse button over the place where you want to create the folder and choose the paste command . ()
103. It is not possible to add a subfolder within the main folder ()
104. Flash memory is used to store and transfer data and information ()
105. Libraries are one of the sources of obtaining information, as they contain many books and articles in various fields ()
106. Hatem uses a folder called Picture to put audio clips of his lessons ()
107. A file is a collection of files and subfolders ()
108. Folders are created to manage File Using ICT tools . ()
109. Live interviews are a face-to-face meeting between two people to exchange experiences and information ()
110. The folder or file name cannot be changed ()
111. To create a new folder, choose the Open command . ()
112. Choose NEW from FILE to create a new folder ()
113. File management on your computer is limited to video clips only ()
114. Data should be organized in the computer for easy retrieval ()

b(Choose the correct answer from the following:-

1. program used to design presentations

Power Point

Excel

Word

2. ..DrFraid..... Hibbert is

Archaeologist

Explorer

Archaeologist and
explorer

3. program used to prepare graphs

Power Point

Excel

Word

4. One of the applications used by Dr. Fraid for holding virtual meetings

.....

What's App

Facebook

google

5. program used to write reports

Power Point

Excel

Word

6. Fraid..... is my resident explorer

The United Nations

National Geographic
Organization

UNICEF

7. Fraid.....Hibbert believes it is important to continue virtual meetings

document it

wipe it

neglect it

8. is to provide knowledge and training to someone in a subject in
which you have great experience

Discussion

Indoctrination

Education and training

9. FraidHibbert generally prefers to communicate with people Through
face to face

Education and training

Video conferencing

Direct interviews

10. Hibbert used to hold meetings Virtually using such as Zoom and
WhatsApp

Interviews

platforms

Channels

11. emails to communicate more.....

formal

traditional

unofficial

12. FraidHibbert as a scientist ...Archeology, it studies the past through.....

Registration

Photography

Exploration and observation

13. It has become an essential part of our daily lives

E-commerce

Share information

programming

14. Used to transfer, share and store information.....

Flash memory

HDMI

Ethernet port

15. A wire that transmits sound and images to and from devices.....

Router

Ethernet port

HDMI

16.is the smallest unit of measurement for storing data

GB

Bit

KB

17.is a unit of measurement used to measure network speed or connection to the Internet

Megabits per second

GB

KB

18. ...like a hard disk drive, but..... Works faster

Flash memory

HDMI

External hard drive

19. Poor network connection during a conference Video

Transfer large files

Ethernet network

Close some programs

20. A device that connects a device..... The computer is connected to the Internet via Ethernet or Wi-Fi

Router

External hard drive

Flash memory

21. whenever The greater the number of cycles, the greater the speed of .data and instructions

Writing

delete

to treat

22. A unit for measuring the number of cycles executed bythe central processing unit per second

kilobytes

terabyte

gigahertz

23. = Kilobyte

1024 bytes

1024 Kilobyte

1024 Mega byte

24. = byte 1

1 byte

1024 KB

8 bit

25. Home Internet does not work , solution.....

Close some programs

Use Ethernet

Move old files to External drive

26. Deleting some unwanted applications leads to.....

The device is slow

Device performance speed

Software update

27. Files are stored using.....

Microphone

the screen

Flash memory

28. One of the common computer problems.....

There is no internet

connection

Scanner

the printer

29. Backups of files are created on.....

Flash

External hard disk

both of them

30. To solve the problem of your computer being slow.....

Update applications

Shut down the device and
restart it

Wi-Fi Check your
connection

31. It is a network used to share information and is less secure.....

Intranet

Mail

The Internet

32. The Internet is a computer network.....

Limited space

open

closed

33.It is a private network limited to the people you connect within
a specific work, school, or institution

Intranet

Closed network

The Internet

34. Like a router to connect your computer to the Internet.....

Gateway

HDMI

Networks

35. is a network available to specific individuals

Closed network – (c

world Wide Web – (B

A) – The Internet

36. = Kilobyte

1024 Mega byte

1024 Kilobyte

1024 bytes

37. The World Wide Web emerged in.....

Late eighties

The nineties

The eighties

38. It was impossible to use Phone while using the Internet and the
...connection was slow but Fixed in.....

- Late eighties The nineties The eighties**
- 39.** Internet access was via dial-up in.....
- Late eighties The nineties The eighties**
- 40.** It became accessible to the network Internet from your smartphone is possible.....
- In the nineties Now In the eighties**
- 41.** It is a high-speed connection..... The same home telephone wires are used for communication With the Internet
- HDMI DSL WWW**
- 42.** Technique A network that connects mobile devices Wireless over short range
- laptop Bluetooth The Internet**
- 43.** The networks provided.....the visually impaired with helping them read In Braille
- Computers Bluetooth speakers Screen readers**
- 44.** is buying things online
- Online shopping Internet of Things Braille**
- 45.** It helps..... people of determination because It contains a lot . of interesting and enjoyable information
- Bluetooth Word program Egyptian Knowledge Bank**
- 46.** It consists of devices connected to the Internet via Wi-Fi that you can control
- Internet of Things Braille Screen readers**
- 47.** When you shop online, you must obtain permission from.....
- c) Strangers Your friends Parents**
- 48.** Granted.....computer persons People of determination have more independence, whether at home or in public places
- Headphones Networks Screens**
- 49.** The network provides screen readers for the visually impaired "
- "Screen Readers For.....**
- Digital privacy Distinctive lighting Acoustic feedback**

50. You should remember..... when giving your information
for security and protection

Digital privacy Data Information

51. ...Household items can be part of a network as well, this is called
.....

Bluetooth technology Internet of Things Egyptian Knowledge Bank

52.A large collection of web pages that you link to each other
using hyperlinks

Screen readers Bluetooth Website

53. If your internet engine is running slowly, check.....

Connect the monitor Connect to WIFI Connect the printer

54. One of the solutions to the slow download problem.....

Software update Restart your computer Download programs

55. The second step in problem solving.....

c) Thinking about solution

methods

b) Study solutions

a) Define the problem

56. It's one of Steps to solve the problem.....

Copy the problem Search by mail Define the problem

57. The first step to solving the problem is

Study solutions Thinking about solution
methods Define the problem

58. Verifying is one of the possible solutions to the slow
operation of the search engine

Printer Bluetooth Connect to Wifi

59. Dr.FraidHibbert uses.....to prepare presentations about his
discoveries

Headphones Presentation Offers Screen readers

60. Check for software updates in case

Slowness of the device Obtaining distinctive
lighting Interruption of Internet
connection

61. To solve the problem of slow downloading.....
 All of the above Check your internet speed Restart the computer
62. In the event of a disconnection from the Internet, contact customer service, which gives you.....
 Bluetooth technology Internet service provider Ethernet wire
63. Following specific steps when working helps to discover problems.....
 its loss repair it destroying it
64. No Internet connection Make sure you are connected
 Scanner Bluetooth Router
65.is used to organize files
 Document Folders File
66. You can organize the files on your device using.....
 Pasting Copying Folders
67. Files are stored using
 Screen Flash memory Microphone
68. .To create a new folder, use the command
 New Repeat Copy
69. is used to insert images and files onto the device
 Printer Scanner Keyboard
70. .is used to enter images into the device for later use
 Printer Scanner Microphone
71. .Choose from the shortcut menu to create a new file
 New Paste Copy
72. .You must putfor each folder and file
 Sequence No Title
73. .A set of data (audio - image - video - text.....)
 Printer File Folder
74. .A group of files and subfolders
 Printer File Folder

75. A device through which a lot of information can be
displayed

Scanner

Television

Libraries

76. It contains many books and articles in various fields

Scanner

Television

Libraries

77. It is used to take pictures and video and store them on a memory stick

Scanner

Digital camera

Flash memory

78. It is a face-to-face meeting between two people to exchange
.experiences and information

c) Video conferencing

b) Direct interviews

A) Libraries

79. It is a code to output information on systems by directing the device's
.camera at the code

QR Code (c

WWW (b

HDMI (A

Model Answer

Put (✓) or (×):-

1. Technological tools have made it easier to complete daily tasks. (✓)
2. The scientistd Fraid had a great role with his colleagues and students all over the world (✓)
3. Fraid Hibbert is a physicist. (×)
4. In his work FraidHibbert relied on the method of exploration, observation, and writing. (✓)
5. The scientist Farid, was doing his work alone (×)
6. PowerPointis used to create mathematical tables and prepare graphs. (×)
7. Word is used to write reports and document meetings and virtual meetings (✓)
8. can be made Virtual meetings and gatherings at any time without organizing a specific date. (×)
9. The scientist Fraid has mentored his students and colleagues all over the world (✓)
10. Mentoring is advising or coaching someone on a topic in which you have significant experience (✓)
11. The exchange of information has become vital in our daily lives (×)
12. Excel is a program used to create mathematical tables and prepare .graphs (✓)
13. Fraid Hibbert is active explorer for the National Geographic Society (✓)
14. Virtual meetings provide an effective way to mentor others (✓)
15. Scientist Fraid is a teacher who guides his students and colleagues around the world. (✓)
16. An Ethernet cable is a device that connects a computer is connected to the Internet via Ethernet or Wi-Fi. (×)
17. Internet connection is better than wireless connection (✓)
18. The higher the number of cycles, the faster the processor (✓)
19. A gigabyteGB equals1024 .MB (✓)
20. It is difficult to back up your files through an external hard drive (×)

21. You cannot solve any problem that may appear to us while using the computer. (x)
22. The hard disk is always smaller than the flash memory. (x)
23. An external hard disk is used to store large files. (✓)
24. A bit is the smallest unit of measurement for storing data. (✓)
25. When there is a problem processing large files, some programs may be closed. (✓)
26. try Fast wired Ethernet network in case the wireless Internet connection is weak and slow. (✓)
27. Ethernet connection is better than Wi-Fi connection. (✓)
28. A router just connects your computer to your Internet service provider. (✓)
29. A gigabyte (GB) is the smallest unit of data. (x)
30. A megabyte (GB) is the largest unit of data. (x)
31. Gigahertz measures the number of cycles your processing unit executes per second. (✓)
32. If you are unable to store files, you can transfer old files to External drive. (✓)
33. Megabit Per second is a unit of measurement used to measure network speed or Internet connection. (✓)
34. Flash memory is used to transfer, share and store information. (✓)
35. An Ethernet port is a wire that transmits audio and video To and from devices. (x)
36. A closed network is a network available to specific individuals. (✓)
37. A closed network is what your school's computer lab could be. (✓)
38. A router is a gateway used to connect a computer to the Internet. (✓)
39. An intranet is a network that connects computers and people from all over the world who use that network. (x)
40. The Internet is a limited network. (x)

41. An Ethernet cable is a wire that connects your computer to your router. (✓)
42. A router is like the Internet service provided by Egyptian companies to citizens. (×)
43. A local network is a computer connected to another computer or device such as a printer or router. (✓)
44. Networks represent groups of people or things connected together for a common goal. (✓)
45. An Internet service provider consists of web pages or web pages that people can navigate between. (×)
46. WWW is the abbreviation for World Wide Web. (✓)
47. LAN is an abbreviation that refers to local network. (✓)
48. Types of networks include the Internet and Intranet only. (×)
49. Gateways such as The router that connects your computer to your Internet service provider. (✓)
50. A closed network is part of the Internet, which consists of web pages that people can navigate between. (×)
51. WWW is part of the closed network. (×)
52. There may be open networks that are available to everyone, and there may also be closed ones that are limited to some people. (✓)
53. In the late 1980s, Internet access was via dial-up. (×)
54. The World Wide Web emerged in the eighties. (×)
55. Wi-Fi devices became popular in the year 2000 and access to a network Internet from your smartphone is possible. (✓)
56. The phone line was the way Used to connect to the Internet in the 1980s. (✓)
57. In the 1990s it was impossible to use Phone while using the Internet ...and the connection was slow but Fixed. (×)
58. Using mobile phones in our daily lives is like using computer networks. (✓)

59. All types of computer networks are closed networks only (x)
60. The Internet of Things consists of devices connected to the Internet via Wi-Fi that you can control (✓)
61. Bluetooth technology A network that connects mobile devices Wireless over short range (✓)
62. Examples of IoT are only Bluetooth speakers (x)
63. Screen readers help the visually impaired write research papers and ...access Documents on your computer (✓)
64. It is important to consider digital privacy before purchasing any product online (✓)
65. Businesses and organizations use networks every day to share information (✓)
66. Networks are not useful for people of determination in saving money ...and time, and increasing Their level of self-confidence (x)
67. You cannot control devices connected to the Internet via Wi-Fi. (x)
68. E-shopping is purchasing items over the Internet (✓)
69. closed networks Networks Some of them are private through Some of them are public through open networks. (✓)
70. Egyptian Knowledge Bank (Egyptian Knowledge Bank) It contains a lot of interesting and enjoyable information (✓)
71. E-commerce has made everyone's lives difficult because it is unsafe (x)
72. Household appliances are not considered part of the networks (x)
73. Computer networks give people People of determination have more independence, whether at home or in public places. (✓)
74. When you do online shopping, you must obtain permission from your parents (✓)
75. Networks for the visually impaired have provided screen readers to help them read In Braille (✓)
76. The Egyptian Knowledge Bank contains interesting and enjoyable information (✓)

77. Checking the WIFI connection is one of the possible solutions to the .slow operation of the search engine (✓)
78. You cannot solve any problem that may appear to us while using the computer (×)
79. . Make sure the router is connected in case your computer is slow (×)
80. If the download is slow Restart your computer and router; Check .internet speed (✓)
81. Restart your router; C R B Ethernet cable New Ethernet in case the .Internet connection is interrupted (✓)
82. .The first step to solving a problem is defining the problem (✓)
83. If you do not find a solution to the problem, you should seek help from .your teacher or a member of your family (✓)
84. Following specific steps when working does not help in discovering .and fixing problems (×)
85. Problems may occur due to the device used, its software, or poor .Internet connection Or its interruption (✓)
86. What you learned from one problem may help you the next time you .try to solve another problem (✓)
87. Check for software updates if your computer slows down when you .open an application (✓)
88. . Check for app updates If the search engine is running slowly (✓)
89. .Check for software updates if your Internet connection is interrupted (×)
90. Thinking of different ways to solve the problem is the second step in .solving the problem (✓)
91. Planning To find different ways to solve the last steps to solve the .problem (×)
92. If an idea you come up with doesn't solve a particular problem, it might contribute to a solution . Another problem (✓)
93. Wi-Fi . connection problems if your computer is slow (×)
94. .It is not necessary to give each file a unique title (×)

95. It is best to place documents, photos, and videos in the correct folder for each type (✓)
96. Flash memory is used to store and transfer files (✓)
97. The main folder contains only one subfolder (✗)
98. The QR Code is a code to output information on systems by directing the device's camera at the code (✓)
99. The scanner is used to convert images into files, save them, and store them on the computer for later reference (✓)
100. One of the sources for obtaining information is to search online only (✗)
101. Pictures and drawings are entered into the computer through a scanner, saved as files, and stored on a memory stick (✗)
102. To create a folder, click the right mouse button over the place where you want to create the folder and choose the paste command. (✗)
103. It is not possible to add a subfolder within the main folder (✗)
104. Flash memory is used to store and transfer data and information (✓)
105. Libraries are one of the sources of obtaining information, as they contain many books and articles in various fields (✓)
106. Hatem uses a folder called Picture to put audio clips of his lessons (✗)
107. A file is a collection of files and subfolders (✗)
108. Folders are created to manage File T Using T tools Information technology T. And communications (✓)
109. Live interviews are a face-to-face meeting between two people to exchange experiences and information (✓)
110. The folder or file name cannot be changed (✗)
111. To create a new folder, choose the Open command. (✗)
112. Choose NEW from FILE to create a new folder (✗)
113. File management on your computer is limited to video clips only (✗)
114. Data should be organized in the computer for easy retrieval (✓)

b) Choose the correct answer from the following:-

1. program used to design presentations
Power Point Excel Word
 2. DrFraid Hibbert is
Archaeologist Explorer Archaeologist and explorer
 3. program used to prepare graphs
Power Point Excel Word
 4. One of the applications used byDr. Fraid for holding virtual meetings
What's App Facebook google
 5. program used to write reports
Power Point Excel Word
 6. Fraid is explorer in
The United Nations National Geographic Organization UNICEF
 7. Fraid Hibbert thinks it's important to follow up Virtual meetings
document it wipe it neglect it
 8.is to provide knowledge and training to someone in a subject .in which you have great experience
Discussion Indoctrination Education and training
 9. FraidHibbert generally prefers to communicate with people Through face to face
A) – Education and training Video conferencing Direct interviews
 10. Hibbert used to hold meetings Virtually using such as Zoomand WhatsApp.

Software update

27. Files are stored using

Microphone

the screen

Flash memory

28. ...One of the common computer problems

There is no internet

connection

Scanner

the printer

29. ...Backups of files are created on

Flash

External hard disk

both of them

30.To solve the problem of your computer being slow

Update applications

Shut down the device and
restart it

Check your Wi-Fi
connection

31.It is a network used to share information and is less secure

The Internet

Mail

Intranet

32. ...The Internet is a computer network

closed

open

Limited space

33. It is a private network limited to the people you connect
.within a specific work, school, or institution

The Internet

Closed network

Intranet

34. . Like a router to connect your computer to the Internet.....

Networks

HDMI

Gateway

35. . is a network available to specific individuals

The Internet

world Wide Web

Closed network

36. = Kilobyte

1024 bytes

1024 Kilobyte

1024 Mega byte

37. The World Wide Web emerged in
The eighties **The nineties** Late eighties
38. It was impossible to use Phone while using the Internet and the
...connection was slow but Fixed in
The eighties The nineties Late eighties
39. Internet access was via dial-up in
The eighties The nineties Late eighties
40. It became accessible to the network Internet from your smartphone is
..... possible
In the eighties **Now** In the nineties
41. It is a high-speed connection..... The same home telephone
wires are used for communication With the Internet
WWW **DSL** HDMI
42. Technique..... A network that connects mobile devices
.Wireless over short range
The Internet **Bluetooth** laptop
43. The networks provided the visually impaired withhelping
them read In Braille
Screen readers Bluetooth speakers Computers
44. . is buying things online
Braille Internet of Things **Online shopping**
45. It helps..... people of determination because It contains a lot
. of interesting and enjoyable information
Egyptian Knowledge Bluetooth
- Bank** Word program
46. It consists of devices connected to the Internet via.....Wi-
Fi .that you can control
Screen readers Braille **Internet of Things**
47. ...When you shop online, you must obtain permission from
Parents Your friends Strangers

48. Granted.....computer persons People of determination have more independence, whether at home or in public places

Screens

Networks

Headphones

49. The network provides screen readers for the visually impaired "Screen Readers For

Acoustic feedback

Distinctive lighting

Digital privacy

50. You should remember..... when giving your information .for security and protection

Information

Data

Digital privacy

51. ...Household items can be part of a network as well, this is called

A) Egyptian Knowledge

Bank

Internet of Things

Bluetooth technology

52. A large collection of web pages that you link to each .other using hyperlinks

Website

Bluetooth

Screen readers

53. ...If your internet engine is running slowly, check

Connect the monitor

Connect to WIFI

Connect the printer

54. ...One of the solutions to the slow download problem

Software update

Restart your computer

Download programs

55. ...The second step in problem solving

Thinking about solution

methods

Study solutions

Define the problem

56. ...Steps to solve the problem

Copy the problem

Search by mail

Define the problem

57. ...The first step to solving the problem is

Study solutions

Thinking about solution
methods

Define the problem

58. Verifying is one of the possible solutions to the slow .operation of the search engine

Printer

Bluetooth

Connect to Wifi

59. Dr. uses Fraid Hibbertto prepare presentations about his
.discoveries

Headphones

Presentation Offers

Screen readers

60. Check for software updates in case

Slowness of the device

Obtaining distinctive
lighting

Interruption of Internet
connection

61. ...To solve the problem of slow downloading

All of the above

Check your internet
speed

Restart the computer

62. In the event of a disconnection from the Internet, contact customer
..... service, which gives you

Bluetooth technology

Internet service provider

Ethernet wire

63. Following specific steps when working helps to discover
.....problems

and its loss

And repair it

And destroying it

64. No Internet connection. Make sure you are connected .

Scanner

Bluetooth

Router

65. is used to organize files

Document

Folders

File

66. ...You can organize the files on your device using

Pasting

Copying

Folders

67. Files are stored using

c) Screen

Flash memory

Microphone

68. .To create a new folder, use the command

New New

Repeat (b

Copy

69. is used to insert images and files onto the device

Printer

Scanner

Keyboard

70. .is used to enter images into the device for later use

Printer

Scanner

Microphone

71. .Choose from the shortcut menu to create a new file

New

Paste

Copy

72. You must putfor each folder and file
- | | | |
|----------|----|-------|
| Sequence | No | Title |
|----------|----|-------|
73. A set of data (audio - image - video - text)
- | | | |
|---------|------|--------|
| Printer | File | Folder |
|---------|------|--------|
74. A group of files and subfolders
- | | | |
|---------|------|--------|
| Printer | File | Folder |
|---------|------|--------|
75. A device through which a lot of information can be displayed
- | | | |
|---------|------------|-----------|
| Scanner | Television | Libraries |
|---------|------------|-----------|
76. .It contains many books and articles in various fields
- | | | |
|---------|------------|-----------|
| Scanner | Television | Libraries |
|---------|------------|-----------|
77. .It is used to take pictures and video and store them on a memory stick
- | | | |
|---------|----------------|--------------|
| Scanner | Digital camera | Flash memory |
|---------|----------------|--------------|
78. It is a face-to-face meeting between two people to exchange .experiences and information
- | | | |
|--------------------|-------------------|-----------|
| Video conferencing | Direct interviews | Libraries |
|--------------------|-------------------|-----------|
79. It is a code to output information on systems by directing the device's .camera at the code
- | | | |

| QR Code | WWW | HDMI |
|---------|-----|------|

Model Exams

Model (1)

Q1:- Put (✓) or (×):-

1. **Technological tools have made it easier to complete daily tasks** ()
2. **FraidHibbert is a resident explorer for the National Geographic Society** ()
3. **An Ethernet cable is a device that connects a device Computer to the Internet via Ethernet or TheWi-Fi.** ()
4. **It is difficult to back up your files through an external hard drive** ()
5. **An intranet is a network that connects computers and people from all over the world who use that network** ()
6. **All types of computer networks are closed networks only** ()
7. **The Internet of things It consists of devices connected to the Internet viaWi-Fi. that you can control** ()

Q2:- Choose the correct answer from between brackets

1. program used to prepare graphs
– (a) Power Point – (b) Excel – (c) Word
2. It has become an essential part of our daily lives
A) – E-commerce – (B) Share information – (c) programming
3. A device that connects a device..... The computer is connected to the Internet
via Ethernet or Wi-Fi
A) – Router – (B) External hard drive – (c) Flash memory
4. = Kilobyte
– (a) 1024 bytes – (b) 1024 Kilobyte – (c) 1024 Mega byte
5. Like a router to connect your computer to the Internet.....
a) – Networks – (b) HDMI – (c) Gateway
6. You should remember..... when giving your information for security
and protection
A) Information b) Data c) Digital privacy
7. ...Steps to solve the problem
a) Define the problem b) Search by mail c) Copy the problem
8. You must putfor each folder and file
a) Title b) No. c) Sequence

Model (2)

Q1:- Put (✓) or (×):-

1. It is best to place documents, photos, and videos in the correct folder .for each type ()
2. .E-shopping is purchasing items over the Internet ()
3. You cannot solve any problem that may appear to us while using the computer ()
4. The QR Code is a code to output information on systems by directing .the device's camera at the code ()
5. WWW .is part of the closed network ()
6. .The first step to solving a problem is defining the problem ()
7. If an idea you come up with doesn't solve a particular problem, it may contribute to a solution . Another problem ()

:Question Two: Choose the correct answer from between brackets

1. .To create a new folder, use the command
(a) Copy (b) Repeat (c) NewNew
2. Check for software updates in case
A) Interruption of Internet connection b) Obtaining distinctive lighting c) Slowness of the device
3. .A set of data (audio - image - video - text.....)
(a) Folder (b) File (c) Printer
4. A large collection of web pages that you link to each other using .hyperlinks
A) Website b) Bluetooth c) Screen readers
5. ...The Internet is a computer network
A) - closed - (B) open - (c) Limited space
6. It consists of devices connected to the Internet via.....Wi-Fi you that .can control
A) Screen readers b) Braille c) Internet of Things
7.To solve the problem of your computer being slow
a) - Update applications - (B) Shut down the device and restart it - (c) Check your Wi-Fi connection
8. .Used to transfer, share and store information.....
a) - Flash memory - (b) HDMI - (c) Ethernet port

Model (3)

Q1:- Put (√) or (×):-

1. The exchange of information has become vital in our daily lives ()
2. Excel is a program used to create mathematical tables and prepare . graphs ()
3. The higher the number of cycles, the faster the processor ()
4. A bit . is the smallest unit of measurement for storing data ()
5. A closed network is what your school's computer lab could be ()
6. A router is a gateway used to connect a computer to the Internet ()
7. To create a new folder, choose the Open command . ()

:Question Two: Choose the correct answer from between brackets

1. FraidHibbert as a scientist ...Archeology, it studies the past through
a) - Registration - (B Photography - (c Exploration and observation
2. ...A wire that transmits sound and images to and from devices
A) - Router - (B Ethernet port - (c HDMI
3. ...Deleting some unwanted applications leads to
A) - The device is slow - (B Device performance speed - (c Software update
4. .is the abbreviation for the World Wide Web
- (a LAN - (B WWW - (c WAN
5. ...The second step in problem solving
a) Define the problem b) Study solutions c) Thinking about solution methods
6. It became accessible to the network Internet from your smartphone is possible
.....
A) -In the eighties b) - Now c) - In the nineties
7. Technique..... A network that connects mobile devices Wireless over .short range
A) The Internet b) Bluetooth laptop
8. is used to organize files
a) File b) Folders c) Document

Model (4)

Q1:- Put (√) or (×):-

1. . File management on your computer is limited to video clips only ()
2. Data should be organized in the computer for easy retrieval ()
3. LAN .is an abbreviation that refers to local network ()
4. Ethernet connection is better than Wi-Fi connection . ()
5. .An Ethernet cable is a wire that connects your computer to your router ()
6. .Examples of IoT are only Bluetooth speakers ()
7. Checking the WIFI connection is one of the possible solutions to the . slow operation of the search engine ()

:Question Two: Choose the correct answer from between brackets

1. .It contains many books and articles in various fields
 A) Libraries b) Television c) Scanner
2. It is a code to output information on systems by directing the device's camera at the .code
 (A HDMI (b WWW (c QR Code
3.Following specific steps when working helps to discover problems
 A) And destroying it b) And repair it C) and its loss
4. ...When you shop online, you must obtain permission from
 A) Parents b) Your friends c) Strangers
5. It helps..... people of determination because It contains a lot of interesting .and enjoyable information
 A) Egyptian Knowledge Bank (b Word program c) Bluetooth
6. .is a network available to specific individuals
 A) - The Internet - (B world Wide Web - (c Closed network
7. is a unit of measurement used to measure network speed or
 connection to the Internet
 a) - Megabits per second - (B GB - (c KB
8. .It has become an essential part of our daily lives
 A) - E-commerce - (B Share information - (c programming
